## EXPERIENCE

### Energy Regulatory Commission (ERC) , Pasig City —OJT

NOV 2025 - MARCH 2026

IT support internship assist in ticketing configuring systems, troubleshooting technical issues such as installation of antivirus and other software, telephone testing, printer connection, deployment and internal movement of hardware, camera and mic set-up for meeting, and maintaining documentation within SLA and security guidelines.

## EDUCATIONAL BACKGROUND

### Bestlink College of the Philippines.Inc, Novaliches - Bachelor

MONTH 2022 - MAY 2026

Bachelor of Science in Computer Engineering with a focus on robotics and embedded systems

## PROJECTS

### Development of Robotic Dispensing System using Raspberry Pi with Husky Lens Camera and Voice Command —

intelligent robot with a dispensing system utilizing Raspberry Pi and HuskyLens AI vision to enhance accuracy and hands-free accessibility in industrial and medical applications." .

### Custom Build Expansion Board for Arduino —

Designed and prototyped a specialized PCB featuring an integrated voltage regulator and dedicated power/ground rails for every analog and digital pin, enabling rapid sensor integration and reliable power management for complex robotics projects.

### Remote Control Car —

A Bluetooth-enabled system powered by an ESP32 and controlled via Android. Features include real-time motor control, signal processing for a buzzer/LED system, and efficient power management.

## SKILLS

### Programming & Software

C, C++, Python, Arduino IDE  
HTML/CSS, SQL, Proteus  
CustomTkinter, circuit io, Blender  
(3D Modeling & Simulation)

### Hardware & Networking

Arduino Uno, ESP32, Raspberry Pi  
Sensor Integration (LiDAR, HuskyLens)  
Basic Electronics, Wiring, & Soldering  
IoT (Wi-Fi/Bluetooth integration)

## TRAININGS & SEMINARS

### ICpEP-NCR Webinar Series

2025: Power-Efficient AI Through Quantization and Research with LLMs/RAG.

### BOSH (Safety Officer II):

40-hour Basic Occupational Safety & Health training certification.

### Chinese Frontier Digital

**Intelligence:** Lectures on Data Analytics and AI Labeling/Annotation.

**DOST-MIRDC Webinar:** iSLM and Intelligent Data-Driven Decision Making for Industry.
